SeisComP3 Software Solutions

Join Us: SeisComP3 Basic Training

Our next SeisComP3 Basic Training course is happening in August. This Beginner Course is perfect for new SeisComP3 users who wish to get quickly started with a productive SeisComP3 system.

The training covers the following topics:

- Introduction to characteristics of SeisComP3.
- Installation of the latest SeisComP3 release.
- Generation of station information including responses.
- Configuration of the acquisition and processing modules through the new graphical user interface.
- Data management utilities.
- Tuning of SeisComP3 for local earthquake monitoring including the phase pickers, locator, associator and magnitudes.
- Practical training (focusing on real-time playbacks, off-line playbacks and hands-on tuning).
- Participants may bring their own datasets and use it for tuning.

This training course is designed to be very hands-on. Trainees will get to practice what they learn at all times. Therefore, the registration to the 5 days training is open to everyone but limited to a maximum of 8 persons. It will be held at Raspberry Shake offices in Boquete, Panamá.

Trainers

We are proud to present to you the following Gempa Geoservices Team that will host, conduct, manage, and support you during this session:

- Faustino Blanco – Customer Services Engineer – Gempa Geoservices S.A.
- Camilo Muñoz – Seismologist – Gempa Geoservices S.A.

Miscellaneous

Participants bring their own computer with a modern Linux installed and access to internet. We recommend to choose Linux distributions with Long-Term-Support (LTS). Alternatively, we can provide Linux in a Virtual Machine for which the participant must have VirtualBox (<https://www.virtualbox.org/>) installed. The participant will receive the VM about one week before the start of the training and is responsible for the testing and functioning on the computer.

The course fee does not cover costs for accommodation, meals, boarding and transportation. Snacks and drinks will be provided during the course. Contact us if you need help to find your hotel.
